Todd Mill and Wildcat Creek Railroad

Why build a model railroad?

I am fascinated by the diversity of railroad equipment—steam power, diesel power, gas turbine power, passenger trains, freight trains, turntables, rotary snow plows, narrow gauge, unique railroad equipment.

I like interesting buildings.

I enjoy building craftsman kits—Campbell, Bar Mills, Model Tech Studios, Blair Line.

I enjoy doing scenery—Big fan of Woodland Scenics.

Objectives of my Layout Design

Run a variety of railroad equipment (freight and passenger) in a cohesive transportation system

- Heavy mainline railroading—Union Pacific
- Branch line railroading
- Narrow gauge

Permit operating sessions

Include interesting scenery

Include interesting structures
